

Preferences and Sensitivities

What are your child's favorite foods?

What foods will your child not eat? The provider will still offer some of these foods to expose to your child, but the information is still useful.

Does your child have any food aversions or sensitivities? If so please explain.

The Daycare will provide generic wipes, creams, and diapers/pull ups for your child. Does your child have sensitive skin and/or would you like to provide any of these supplies?
